## EXPERIENCE

### Microcode Technologies

Junior Developer

Oct 2022 - Jul 2024

Bagmati, KTM

- Crafted custom HTML templates and integrated them into the .NET Core MVC architecture using GitHub, improving frontend functionality and delivering a smooth, responsive user interface
- Demonstrated strong proficiency in Object-Oriented Programming (OOP) principles, applying them to streamline code structure and enhance database performance by designing efficient SQL queries for comprehensive reporting, leveraging analytical skills to identify optimization opportunities.
- Adapted quickly to changing requirements within an agile delivery framework, using C# and ASP.NET Core to deliver high-quality solutions on schedule, which reduced rework and kept the project on track.
- Designed and developed more than three dynamic web applications with ASP.NET Core MVC, creating scalable RESTful APIs that improved functionality and user experience
- Led development of an Incident Management System for IXsight with ASP.NET Core, building an n-tier architecture with over 20 features and creating dynamic reports and charts for both backend and frontend, demonstrating ownership bias to ensure the system met user requirements and operated efficiently.

### Dish Media Network

Application Support Assistant

Feb 2021 - Oct 2022

Lalitpur, KTM

- Conducted automated functional testing of internal web applications using Selenium and JavaScript (Bootstrap, jQuery), incorporating process automation to verify business logic, reduce critical bugs, and improve system reliability.
- Developed tailored SQL queries to generate detailed reports, meeting the unique data requirements of various departments and optimizing decision-making processes.
- Led high-level meetings with 5+ department heads to gather critical business requirements, ensuring a deep understanding of system issues and driving effective solutions.
- Served as both an admin and project manager, overseeing business requirement gathering, generating custom reports, managing user creation, and ensuring smooth system operations from end to end.

## PROJECTS

### AML Sanction Screening

- Created frontend design for API using HTML, CSS, JavaScript, JQuery and Bootstrap.
- Also created Authentication and Authorization and implemented SigmaJS for node-to-node connection and data Visualization.

### Restaurant Management System

- Engineered robust 10+ APIs for a restaurant application using a 3-tier architecture, incorporating JWT Token Authentication and Authorization for secure logins.
- Enhanced security with DNT Captcha and ensured seamless cross-origin interactions by implementing CORS.
